Disclaimers

1. This report was generated by the council tracking platform from the council's own general ledger. It is NOT an official Knights of Columbus Supreme Council form and does not replace Form 1295 as the Supreme Council prescribes and receives it. Copy its figures onto the official form and file that form as the Supreme Council directs.
2. The figures are only as accurate as the ledger entries. Before signing, the Trustees must check every line against the original bank statements, the Financial Secretary's and Treasurer's records, and the supporting receipts.
3. Cash means the council's ledger cash accounts (bank accounts and the goal funds set aside inside them). Equipment, receivables, unpaid bills and any account not kept in the ledger are not part of this reconciliation.
4. An electronic signature recorded in the platform shows that the Trustee verified the lines on the audit desk. The official form, the council's bylaws or the Supreme Council may still require handwritten signatures.
5. Confidential: this report contains council financial information. Share it only with the council's officers, Trustees and the Supreme Council.
